Homework and Quizzes. You should do the assigned homework *and* as many extra problems as you need to learn the stuff and become good at it. Every Wednesday there is a quiz, and then there is time in class to work on the homework.

Final Exam: Monday, December 14, 9–11 a.m. in LA106. Grading out of 100 points:

Homework, Quizzes	15	Calculators are not allowed on the exams.
Exam I, II, III each	15	
Final	40

In this class students learn

- (1) to formulate concepts related to mathematical analysis.
- (2) to solve problems by applying these concepts.
- (3) to perform calculations related to these concepts.

What do you need to do to succeed in this class? Prepare for every class and actively participate. Do all the homework and quizzes. When you feel you need extra help and guidance, *immediately* take action.

The homework, quizzes and midterms are tools for you to learn. The more mistakes you make, and *subsequently work to understand and correct*, the better you'll do on the final. But the midterm grades are the best indicator of how you will do on the final. If your midterm grades are low, *you* will need to make some changes. I will help you with that.

Attention Students with Disabilities. If you have any disability which may impair your ability to successfully complete this course, please contact the Accessibility Services office, 863-8747, BU146. Academic accommodations are granted for all students who have qualified documented disabilities. All services are coordinated with the Accessibility Services office.

Prerequisite: Math 1050 and 1060, or other possibilities. If you don't have the required prerequisites, you will be administratively withdrawn.

Last day to withdraw October 7.
